VOL. 6. NO. 15

Lancaster Farming, Saturday, March 4, 1961

\$2 Per Year

Baby Beef and Lamb Club Officers

OFFICERS OF THE RED ROSE Baby Beef and Lamb Club after their election on Wednesday night are, front row, left to right, Virginia Wivell, Columbia R1, news reporter, Janet Frey, Marietta R1, assistant secretary; Jean Miller, Elizabethtown R3, secretary, Wilbur Hosler, Manheim R3, president, David Lapp, Bareville R1, vice president, and Glenn Foreman, Manheim R3, treasurer. Back row left to right are Larry Hait, of Quarryville R2, Game Leader; Kenneth Weaver, Quarryville R2, song leader, and David Enlinger, 2351 Horseshoe Road, news reporter. Not present for picture were Juliann Ho, Mount Joy R1, song leader, and Nancy Landis, Strasburg, game leader. The members reelected the following adult leaders: Mylin R. Good, Elvin Hess, Jr., Fred W. Anton, Victor Longenecker, Jay R. Nissley, and Harry Showalter. There are 103 members in the club.

Natl. 4-H Week Marked By Local Clubs, Workers

By: Winthrop Merrian, Assistant County Agent

Being celebrated this week in Pennsylvania and 49 other states, is an important event of real significance to millions of Americans. This is National 4-H Club Week.

During 1960 there were 1,400 club members in Lancaster County with over 43,500 club members throughout Pennsylvania and more than 2,300,000 members across the nation. The observance will consist of a variety of activities all designed to call public attention to the achievements of 4-H members and to the advantages of club membership for boys and girls not

yet enrolled in this youth movement.

4-H club work not only teaches boys and girls better methods and skills related to agriculture and to home economics; it gives them training and experience in citizenship, community life, character building, and spiritual development.

Events such as National (Turn to page 4)

Red Rose DHIA Seats Directors, Hold Election of Officers

The board of directors of the Red Rose Dairy Herd Improvement Association Monday night seated eight new members and installed new officers for the year.

Six of the new directors will represent their testing association on the board for a three year term. One new member will finish the unexpired term of another director who has gone out of the dairy business, while the other director will represent a county breed association.

Jay Landis, Lancaster R6, was elected president of the board for a one year term. Other officers elected were vice president, Robert Hess, Strasburg R1 and secretary, John Shelly, Manheim R1. The board hired Jacob Houser, Jr. to continue as treasurer of the association.

In other business the board hired Earl Martin, of Ephrata R1, as tester in Association 15 to replace Irvin Wenger who recently resigned. Mrs. Clarence Creider, Manheim R3 was approved as an assistant tester.

The directors instructed testers to include the names of all owner-sampler members in their monthly financial reports.

Members of the board of directors voted to withhold the sum of \$30.00 from the first month's pay of all new testers. This amount would be applied toward the normal withholding of 20 cents per herd per month until the normal withholding reached the sum of \$30.00.

The directors further made it mandatory for a new tester to work a full year in order to collect the amount (Turn to page 6)

Solanco Girls Will Present Demonstration

Four members of the Solanco Future Homemakers of America have won a trip to Drexel Institute of Technology to present a demonstration called "Kitchen Hit Parade".

The girls, all students at Solanco High School, will leave Quarryville after school on Friday evening, March 10. After staying on the campus at Drexel overnight, the girls will present their demonstration in the Home Economics building on Saturday at 10:30 a.m.

The demonstration will be (Turn to page 12)

53 Countians At Co-Op Meet

A contingent of 53 members of Eastern States Farmers' Exchange left Lancaster Thursday by train to attend the 43 annual meeting of the cooperative at Springfield, Mass., according to Laverne Pownall, District Manager.

The group attended business and educational sessions of the cooperative's annual meeting and will return to Lancaster County sometime this evening.

FIVE - DAY WEATHER FORECAST

Saturday - Wednesday

Temperatures during the next five days will average about eight degrees above the normal range of 30 at night to 47 in the afternoon. Mild weather is expected throughout the period except briefly cooler about Sunday and Tuesday. Precipitation may total about 0.2 to 0.6 inch falling as rain mainly about Sunday.

Soil Expert Says, Tests Did Not Count on Weather

Farmers may have to reevaluate results of soil tests on basis of winter treatment of soils, county farmers were told this week.

John E. Baylor, Extension Agronomist from Pennsylvania State University told 200 farmers at the first county soils day, many live-back men planned to give field an application of manure and received recommendations from the college's soil testing service on that basis. Because of snows, he said, many farmers were not able to get the manure applied. Baylor cautioned farmers to take this into consideration when applying fertilizer to fields this spring.

Another extension agronomist, James Eakin, said about half the Lancaster County soils tested at the college could cut back on the amounts of commercial fertilizer, particularly potash, and cause no reduction in yield. The other 50 per cent should have additional applications, he said.

Eakin urged farmers to avoid "spoon feeding" a soil. "Some of your tobacco fields, he said, the old 4-8-12 situation like a square peg in a round hole. You can not afford to fertilize for weed control," he said. 2,4-D is still a good herbicide, but atrazine gives excellent control and the

corn will not become brittle in the stalks and roots. He said, Randox, Randox - T, Epam, and 2,4-DB are NOT recommended for use on corn.

The more extensive use of cover crops was urged by F. A. Raymaley of the American Cyanamid Company. He said cover crops should be fertilized in order to promote large growth and produce more residues. The commercial fertilizers applied to a cover crop will be recovered by the following cash crop, he said.

Prizes to winners in the five-acre corn contest and the District hay show at Hershey were presented by Cospoon feed a soil deficient in Phosphorus," he said, "If you have a deficiency, lime the soil to the proper pH, add super Phosphate at the rate of 1000 lbs. per acre and add high phosphorus fertilizer in the row. Get rid of the deficiency all at once."

Chickweed Control
"It is still OK to spray Chloro IPC for chickweed control in Alfalfa because the weed has not made much growth yet," George Berg-

(Turn to page 5)

Wilful Waste Is Scored By Biemsderfer

Planned obsolescence, a big term for things made to wear out in a short period of time, is one of the revolting portions of our way of life, Dr. D. L. Biemsderfer, president of Millersville State College, told soil conservationists on Thursday night.

"We live in an age which is somewhat antagonistic to the idea of conservation," he said at the banquet of the Lancaster County Soil Conservation District at the Ephrata EUB Church.

"Waste, becomes a key word in our society," Dr. Biemsderfer said. He said he was not calling for a return to a time when we did not have the material things offered to us in 1961, but if we are constructing a society in which conservation is foreign, we should recognize it.

Dr. Biemsderfer defined conservation as the use of any resource, not only soil, to derive the maximum good while the resource is being used and to preserve the resource as long as possible.

(Turn to page 16)

CHAMPION CORN GROWERS of the county received ribbons Tuesday at the first annual soils day. Blue ribbons in the 1960 five-acre corn contest, shown accepting the congratulations of County Agent M. M. Smith, left, are, left to right, Clarence Keener, Sr., Manheim R1, Harold G. Rohrer, Lancaster R7, and J. C. Garber, Jr., Lancaster R6. Keener's yield was 170.3 bushels per acre.

Slaughter Cows: cutters & Utility ranged from 15.50-18.00, Canners and low-Cutters 14.25-15.50, with shelly Canners selling down to 12.

Bulls: Utility and Commercial 19.50-22.50, Good grade 22.50-24.50.

Stockers and Feeders: Good and Choice 700-950 lb. feeder steers 25-27., Medium and Good 22.00-25.50, several lots Good 600-750 lb. stock steers 23.50-26.00, load Fancy 563 lbs. 29.50.

CALVES: 700 compared with 695 last week. Trading was moderately active. Vealers were steady. Good and Choice vealers ranged from 27-34., Choice and Prime 34.00-40., Standard and low-Good 18-27., Utility down to 16.00.

HOGS: 1800 compared with 2051 last week. Trading was slow. Barrows and gilts were fully 25 lower. Sold at a steady rate.

Barrows and Gilts: U. S. 1-2 190-225 lbs. brought 19.75-20.25, no. 1 190-225 lbs. 20.50-21.50, 1-3 190-235 lbs. 19.19.50, 240-260 lbs. 18.50-19.

including a few lots 2-3 grade 200-230 lbs. at 18.75.

Sows: U. S. 1-3, mostly 2-3, 300-600 lbs. 12.50-16.00.

SHEEP: 225 compared with 384 last week. Trading was moderately active. Woolled slaughter lambs were steady.

Woolled Slaughter Lambs: Good and Choice 75-105 lbs. sold for 18.50-20.50, and a few lots Choice and Prime 20.50-21.50 with Utility and low-Good 16.00-18.50.

Chicago Cattle Quality Cattle Steady to Strong

Average choice to prime steers steady to strong, low choice and below steady to 50 lower, mostly 25 lower for 6th consecutive week of lower prices, heifers 25 to fully 50 lower, cows steady to 50 higher, bulls fully 50 lower, vealers and stockers and feeders steady.

Three loads prime 1165-1325 lb. slaughter steers 28.35-28.50, bulk choice and prime 900-1400 lbs. 25.00-28.25. Many loads mixed choice and prime 1000-1400 lbs. 27-28. Few loads high

Vintage Livestock Steers Sell Mostly Steady

Cattle: 350. Compared to last week's market, slaughter steers were steady to 25 lower at the February 28 auction at Vintage. Cows were 25 higher. Bulls sold 50 higher.

A few lots good grade 1.0-00 to 1.150 lb. slaughter steers 26-27. Good to low choice 23.75-26. Standard down to 22.

Cutter and utility cows at 15.50-17. Canners and low-cutters 13.75-15.50. Utility and commercial bulls 19.50-23.

Calves: 387. Prime grade vealers absent, choice steady Good grade and below at 1 higher. Good and choice vealers made 28-34 with a few lots of choice up to 39. Standard and low good 21-28., and utility down to 18.

Hogs: 131. Barrows and gilts 25 lower. U.S. 1 and 2 grade 200-224 lb. barrows and gilts 19.10-19.85. 1-3 grade 195-230 lb. 18.50-18.85. Lot 2 and 3 grade at 245 lb. 18.60.

Sheep: 31. Not enough of any class on offer to establish a market.

choice and mixed choice and prime 975-1100 lb. steer yearlings 27.00-27.75. Bulk (Turn to page 3)

New Holland Steady On Less Quality

Cattle: 852 Compared with last week's market slaughter steers were fully steady with lesser quality considered. Cows sold 50 to 1.00 higher with most of the advance on canner grades. Bulls were 50 lower.

The bulk of the choice grade slaughter steers made 26.25 to 27.50; a few lots went to 27.85. A few choice steers at 1,300 to 1,400 lbs. 25.75-26.25. Good to low choice 24.0 to 26.25. Standard down to 22.

Cutter and utility cows 15.75 to 17.25. Canners and low cutters 14.50 to 15.75 with shelly canners down to 13.

Utility and commercial bulls 19.50-22.50. A few good grade bulls made 23.25.

Calves: 400. Choice and prime vealers sold 1.00 lower Good grade and below were 2.00 lower. Good and choice vealers were 28-37 with choice and prime 37-42-50. Standard and low good 20-28 and utility down to 17.

The dairy cattle market continued very slow at the March 1 auction. Receipts included 80 cow, six stock bulls and 28 stock heifers.

Fresh cows, Holstein, \$300-375. Guernseys - \$170-225, other breeds - \$175-265. Stock bulls - \$100-225. Stock heifers - \$75-185.

Horses continued steady on, larger volume at the February 27 sale. Receipts included 266 head of horses, ponies and mules.

Mules by the pair brought \$300-600, singles - \$125-225. Pony mares sold from \$95 to \$130; geldings \$45 to \$90. Riding horses ranged from \$110-300, driving horses \$120-250. Killers brought 81 to 9 1/2 cents.

High Lawns Lady Jane, a ten-year-old Guernsey owned by J. Rohrer Witmer produced 11,380 pounds of milk and 550 pounds of fat in 30 days. She was milked two times daily.

(From Page 2)

choice 900-1400 lbs. 25.00 - 27.00. Bulk good steers 22.50 - 24.50 but largely 24.25 down.

Mixed choice and prime heifers 26-26.25, several loads high choice 900-100 lbs. 26 but choice 24.75-25.75.

Several loads good to mostly choice 950-1050 lb. partially fattened steers 24.25-25.00, good and mixed med-ium and good 750-975 lbs. 22-23.50.

Delmarva-Georgia Clearing Well At Lower Prices

Delmarva reported slightly lower prices late in the week but live offerings continued to clear readily.

Live prices at farms during the 24 hour period ending 10.30 Friday morning ranged from 16.7 to 17.7 for the 777,000 head which included 459,400 head purchased Thursday at the Eastern Shore Poultry Growers Exchange at Shelbyville Del.

Estimated slaughter for the week end by eastern shore processors was 712,000 head compared to the 624,000 head last week end.

The Delmarva broiler-feed ratio for the week ending on Feb. 24 slipped one point to 4.1. The lower ratio was reflection of lower broiler prices. Live broiler prices per pound dropped from 19.37 to 18.81 while the cost per ton of 20 per cent mash rose from \$91.97 to \$92.77. The ratio six months ago was 3.7 and for the comparable week a year ago, the ratio stood at 4.0.

Fluid Milk

Seasonal Spurt Is Reported

Production of fluid milk was reported in a seasonal increase along the East coast. Supplies were fully ample with an increase in bottling demand reported in most areas.

A better interest in manufacturing milk noted at New York with surplus offerings in all areas limited to separators and manufacturing channels.

Wholesale selling prices at New York ranged from \$5. to \$5.15 per 40 quart unit

TO SPRAY WILD GARLIC—Dairymen are urged to make every effort to eliminate wild garlic from their land. The weed causes enormous losses each spring by off flavored milk. In pasture land the garlic may be sprayed during mid March with one to one and a half pounds per acre of the ester form of 2, 4-D. This will kill the young garlic shoots before the clover or other legumes get much growth. Several years of such spraying may be needed to eliminate the majority of the garlic plants.

Soils Day
(From page 1)
Extension agronomist
He said the tempera-
ture should be about 50 de-

grees when the work is done
and he cautioned against
spraying after the weed has
several inches of growth.

Stock Show Dates Scheduled

Harrisburg, Pa. — The
Pennsylvania State Farm
Products Show Commission
today announced that the
1961 Pennsylvania Livestock
Exposition will be held No-
vember 6 through 11 at the
Farm Show Buildings here

Commission Chairman Wil-
liam L. Henning, State Sec-
retary of Agriculture, said
that the dates will allow ex-
hibitors of swine, beef cattle
and sheep to move their ani-
mals from the Pennsylvania
Livestock Exposition to Tim-
onium, Md., for the Eastern
National Livestock Show
which follows the next
week

This is the fifth outing for
the Pennsylvania Livestock
Exposition which currently
ranks at or near the top in
the East for the quality of
its swine, sheep and carcass
shows. It is sponsored by the
State Farm Products Show
Commission, an administra-
tive commission of the Pen-
sylvania Department of Agri-

Nutrition Studies

USDA Needs Twin Bull Calves

Several pairs of identical-twin beef-type bull calves are needed by U. S. Department of Agriculture scientists for use in nutrition and breeding studies to be conducted at USDA's Agricultural Research Center, Beltsville, Md.

The bull calves sought for purchase can be either purebred, grade, or crossbred animals less than 5 months old.

The calves are being sought, so far as possible, within a 250-mile radius of Washington, D.C., as a means of holding shipping costs to a minimum. This includes Maryland, Virginia, West Virginia, and southeastern Pennsylvania.

Owners or producers willing to sell identical-twin bull calves that meet USDA specifications are requested to write Dr. Everett J. Warwick, Chief, Beef Cattle Research Branch, Animal Husbandry Research Division, Beltsville, Md. An inspector will be sent to check the calves before purchase.

Identical-twin calves are rare, and are developed from a single cell. They are always the same sex, look very much alike, and react in much the same manner. Frequently their markings may be repeated on the same or opposite sides. In cases, where the right and left side markings are reversed, the resemblance is known as "mirror likeness."

Identical-twin calves are particularly useful in research. (Turn to page 11)

DO YOUR BROOD SOWS NEED HELP?

Most sows do not give enough milk beyond the 5th week of lactation to meet the requirements of large litters.

TRY OUR—

No. 12 Green Pastures Pig Starter Pellets!

HOW TO USE:—

Start Creep feeding No. 12 when pigs weigh 5 lb. or are 7 days old and feed through 6th week when pigs should weigh about 25 lbs.

AMOUNT REQUIRED

1.5 to 2.0 lbs. per pig.

FEED PER LBS. OF GAIN DURING THIS PERIOD

1.25 to 1.50 lbs.

FIELD TESTS INDICATE:—

1. More uniformity in pigs, fewer runts.
2. More economical gains. Heavier pigs at 8 weeks.
3. Pigs may be weaned at six weeks. This gives more time for proper conditioning of sow before re-breeding.
4. Easier to maintain farrowing schedule.

MOST PALATABLE FEED WE HAVE
"Sweet as a good muffin"

For the Farm Wife and Family

Dinner In A Casserole

By Mrs. Richard C. Spence

Chicken is always a favorite ingredient for a casserole. Doesn't this "Country Gravy Chicken" sound as good as it obviously tastes? Most casseroles can be prepared early in the day; the baking process can be finished at mealtime.

COUNTRY GRAVY CHICKEN

1 cup flour
5 teaspoons salt
½ teaspoon pepper
3 large chicken breasts, halved
¼ cup (½ stick) butter
1 tablespoon flour
1 cup milk
½ clove garlic, diced, or
¼ teaspoon garlic powder
½ teaspoon salt
2 tablespoons chopped parsley
½ teaspoon rosemary
¼ cup chopped green onions
½ cup diced celery
½ cup (4 ounce can) sliced mushrooms

Mix flour, salt and pepper in a paper bag. Shake chicken pieces, one at a time, in bag to coat thoroughly. Brown chicken in melted butter in large skillet. Arrange chicken pieces in a shallow 2-quart casserole. Blend 1 tablespoon flour with the fat remaining in the skillet to form a smooth paste. Remove from heat. Add milk, garlic and salt, stir until blended. Return to heat and cook, stirring constantly, until mixture reaches simmering point. Set aside. Sprinkle the parsley, rosemary, onions, celery and mushrooms evenly over the chicken in the casserole. Top with prepared gravy and bake 45 minutes in a 350 degree oven. Serves 6.

Bake these green beans right along with the chicken.

OVEN GREEN BEANS

2 9-oz packages frozen green beans
2 tablespoons butter
Combine green beans and butter in casserole. Cover and bake 45 minutes at 350 degrees.

CHICK'N HAM CASEROLE

8 ounces long spaghetti
1 cup diced cooked chicken

cream and the milk parsley and olives. Makes 4
until well blended. Pour ov- to 6 servings.

MEYER Saves the Leaves

MEYER Hay Conditioner Model No. 675

Leaves Stay on Stems when SLOW ROLLED

MEYER Conditioning Rolls revolve slower . . . because they are fed by an exclusive, separate pick-up — and do NOT rely on high speed in order to pick up the hay. When high speed rolls are used, hay is grabbed up and forced through . . . leaves are lost. With the MEYER, the hay is lifted and fed through the slower-moving rolls which thoroughly but gently crack the entire stems without crimping and gently press the leaves. The leaves a MEYER saves out more dollars into your pocket, yet MEYER is priced lower.

Condition while you cut. Use your own mower with Model 675, or get Model 680 with built-in-mower, a MEYER patented feature. Model 205, without separate pick-up, is for use on smooth, rock-and-terrace-free fields. Does superior job to crimper-type machine.

MEYER — maker of famous MEYER elevators — is the original and oldest manufacturer of hay conditioners — with over five years more experience than all other makes.

BIT-OF-TURKEY CASSEROLE

1 cup dairy sour cream
1 cup milk
2 eggs, slightly beaten
½ teaspoon salt

¼ cup enriched flour
2 tablespoons lemon juice
8 ounces elbow macaroni
1½ cups cooked broccoli pieces
2 cups cooked diced tur-

key (or chicken)
In top of double boiler combine sour cream, eggs, salt and flour. Cook over boiling water, stirring occasionally, until mixture begins to thicken. Stir in lemon juice. Meanwhile, cook macaroni. Add 4 teaspoons salt and macaroni to 1½ quarts boiling water. Boil rapidly, stirring constantly, for 2 minutes. Cover, remove from heat and let stand 5 minutes. Rinse with warm water and drain well. Combine sauce, macaroni, broccoli and turkey. Turn into greased 2-qt. casserole. Cover and bake in moderate oven (350 degrees) about 15 minutes. Makes 4 to 6 servings.

CHICKEN PERMAZZINI

2 cups sliced cooked chicken
12-ounce can pork & beef luncheon meat, cubed
1 pound can peas, drained
8 ounces spaghetti
2 cups cubed pasteurized process American cheese
½ cup coarsely chopped onion
½ cup coarsely chopped green pepper
2 tablespoons butter or

Lancaster Farming, Saturday, March 4, 1961—9

margarine
3 tablespoons cornstarch
1½ cups broth
¼ cup chopped red pimiento
1 teaspoon tarragon leaves
1 teaspoon salt
½ teaspoon pepper
½ cup blanched almonds, sliced

range on meat and peas. Top with cheese and chicken. Cook onion and green pepper in melted butter until tender, about 5 minutes. Blend in cornstarch. Add broth and cook, stirring constantly, until clear and thickened. Add pimiento, tarragon leaves, salt, and pepper. Pour over chicken. Sprinkle almonds over top. Bake in a moderate oven (350 degrees) 30 minutes. 6 directions on package. Ar-

First place cubed beef and pork luncheon meat into a 2-quart casserole. Add peas. Cook spaghetti according to

Best Food Buys

March Is National Egg Month

March has been proclaimed National Egg Month and economy-minded foodshoppers are alerted to the fact that egg production is at a seasonal peak and prices very reasonable, reports Tom Iuper, Penn State Extension Marketing Agent. Based on price per pound, large eggs are the best buy now. Eggs are versatile and can be served any style—from soft-cooked to soufflé, in combination with fish, meats, poultry, cheese, in cakes and in other baked goods, and in soups, sauces and salads.

Moderating weather has made it possible for producers to increase the marketing of livestock. Shoppers may note slightly lower prices on forequarter cuts of beef, particularly on chuck roasts. Steaks remain on the list of good buys, this is a good time to stock the freezer for more economical cook-outs next summer.

Smoked ham, veal, lamb, and turkey will show up in the form of spot bargains at some markets. Crab meat, fresh rock fish, flounder remain among the better buys in sea food.

The sight of fresh asparagus at the vegetable counter might indicate that Spring is not far away. Limited supplies of this item cause it to be rather expensively priced. Good buys include potatoes, vine-ripened tomatoes, broccoli, cabbage, onions and leafy vegetables. Slightly lower prices will be noted on celery, and carrots while peppers, cucumbers, green beans, lettuce, Brussel sprouts, cauliflower, egg plant, sweet corn, and sweet potatoes are priced higher on shorter supplies.

Heavy rains in Florida and California have hampered harvesting operations on many of these vegetables.

Demand for bananas has improved with the arrival of moderating temperatures and retail prices are expected to strengthen. Grapefruit promises to be the leading value among citrus as supplies are somewhat larger than a year ago. Prices remain unchanged on oranges. Shoppers can select from California Navels, Florida Temples, and a limited supply of the Murcott variety which is a highly flavored, firm orange. Stayman, Rome Beauty, and De-

licious apples are moving well and quality is reported good.

Strawberries are appearing in more plentiful supply but quality is off this week due to poor weather in the growing areas. For those interested in the more expensive luxury foods, there are plums, peaches and nectarines imported from South A-

● Casserole

(From page 9)
to 8 servings.

PARTY VEAL PAPRIKA

8 slices bacon, diced
¼ cup chopped onion
¼ cup flour
2 teaspoons salt
¼ teaspoon pepper
2 pounds boneless veal shoulder, 1-inch cubes
¼ cup water

merica and some honey dew and watermelons arriving from Mexico.

1 tablespoon paprika
1 cup dairy sour cream
8 ounces elbow macaroni
2 tablespoons butter
1 tablespoon poppyseed
1 4-oz. can sliced mushrooms
1 teaspoon paprika
2 tablespoons chopped parsley

Fry bacon until crisp, add onion and fry until transparent. Remove from skillet. Mix flour, salt and pepper in paper sack. Dust veal with seasoned flour by shaking in sack. Return bacon, onion, and water to skillet. Cover and simmer until fork-tend-

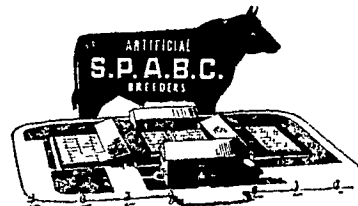

er, 50 to 60 minutes. Stir in paprika and sour cream. Meanwhile, cook macaroni in boiling salted water, drain and toss with butter, poppyseed and mushrooms.

Reserve a few mushrooms for garnish. Pour macaroni mixture into lightly-greased shallow 2-quart baking dish. Pour veal and paprika on top, and sprinkle with chopped parsley, mushrooms and a little paprika. Place in moderate oven (350 degrees) for 15 minutes to heat thoroughly. Garnish with chopped parsley. 4 to 6 servings.

How Much Does It Cost?

Custom Work Rates Estimated

HARRISBURG — What does it cost to plant an acre of corn in Pennsylvania? According to figures collected by the Crop Reporting Service of the Pennsylvania Department of Agriculture, on the rates of custom operators, the bill would come to \$10.60 an acre plus the cost of the seed and fertilizer.

Broken down, the average cost of plowing an acre of

The most uniform rate within the state was the 10 cents a bale charged for the baling of hay and straw. Incidentally, the average bale is 3.1 feet long.

Other average charges are \$6.15 an acre or \$7.05 an hr. for two-row corn picking; \$6.15 an acre or \$7.25 an hour for corn combining; \$5.75 an acre for combining small grains with a pull-type machine or \$6.85 for combining with a self-propelled combine; and 19 cents an hour for feed grinding and mixing.

The average cost of a complete job of silo filling comes to \$12.35 an hour. This job includes the use of the chopper, the blower, one full time and one part-time tractor, two wagons full time and one part-time and the services of two men.

Weed control spraying averaged \$2.45 an acre with the operator furnishing the spray material and \$1.55 an acre if the farmer furnishes the material.

Insect and disease spray rates were \$3.30 an acre if the materials were furnished by the operator and \$1.55 if the farmer furnished the materials.

Some operators did not report rate charges for certain jobs. For example, the job of field chopping hay or silage, on a per acre basis, does not show any average rates for the areas or the state. There were only 11 reports submitted on this particular job for the entire state.

Lancaster Farming, Saturday, March 4, 1961—11

Rates charged ranged from \$6 reported in the south central area to \$15 in the northwest. The state average for the 10 reports for field chopping on an acre basis came to \$10.30.

The average prices were for the 1960 crop year.

Girl's Father: "So you want to be my son-in-law, eh?"

Suitor: "Well, not exactly, sir. I just want to marry your daughter."

● Nutrition Studies

(From page 7)
search because of their similar physical reactions. Producers within a 250 mile radius of Washington, D.C., who find identical-twin calves in their herds this spring may be able to make a substantial contribution to research of benefit to the livestock industry, research officials said.

A conservative is a chap who thinks nothing should be done for the first time.

Pa. Certifies 166,576 Bu. Seed Potatoes

Harrisburg, Feb. 28—The Bureau of Plant Industry of the Pennsylvania Department of Agriculture announced today that 166,576 bushels of seed potatoes have passed certification requirements.

An actual growth test carried on this winter in Florida showed that more than 99 per cent of the seed potatoes are free of virus diseases. Rules for certification of seed potatoes require that only 97 per cent of the seed potatoes be virus-free.

Virus diseases—leaf roll, mosaic and spindle tuber—are the main reasons for "running-out" of non-certified seed potatoes. Virus infected seeds can cause a production drop of up to 40 per cent per hill of potatoes.

Field inspectors of the Bureau of Plant Industry check seed fields during the growing season to determine the extent of virus infection. The growth test in Florida acts as a further check on the disease-freedom of the seed potatoes.

Kennebec, Russet, Katahdin and Norland varieties are available as Pennsylvania-produced certified seed potatoes. County agricultural extension agents or C. F. Campbell, Bureau of Plant Industry, Pennsylvania Department of Agriculture, Harrisburg, may be consulted for sources of certified seed potatoes.

• Solanco Girls

(From page 1)

The one presented by the girls at the 1961 Pennsylvania State Farm Show at Harrisburg in January.

Participating in the demonstration will be Miss Alva Herr, daughter of Mr. and Mrs. Paul Herr, Holtwood, Pa.; Miss Kay Lefever, daughter of Mr. and Mrs. Pres. on Lefever, Quarryville, Pa.; Miss Goldenia Trimble, daughter of Mr. and Mrs. Paul Trimble, New Providence, Pa.; and Miss Alice Welch, daughter of Mr. and Mrs. Reuel Welch, Peach Bottom, Pa.

Solanco FHA held its regular monthly meeting in the Home Economics Cottage after school on Monday evening, February 20.

ANY DAIRY FARMER

that reads this ad and is interested in putting on a few good Wisconsin milk cows to step up your milk production, please drop us a card right away giving your name, location and telephone number and we will contact you right away at your farm.

Look your herd over and check them over closely and cull out your beef to make room for good cows. We have a very good market for your culls and any kind of beef cows that you might want to trade. We are receiving 2 to 5 trailer loads a week from Wisconsin. Delivery can be arranged for most anywhere in Pennsylvania right to your farm. If you would prefer to take a drive over to our cattle farms, take the Penna. Turnpike which leads on to the N. J. Turnpike then get off at N. J. Exit no. 5, turn right towards Mount Holly, and stop at first gas station and telephone us and our fieldman will come and lead you over to our cattle farms. Our cattle farms are located on each side of Highway 206, 1 1/2 miles this side of Vincentown, N. J. or about 6 miles from N. J. Turnpike Exit no. 5. Look for eight silos, 4 silos on each side of highway, also telephone us the night before for an appointment to meet us.

Robert Groff Is Extension Assn. President

Robert Groff, Quarryville R3, was elected to replace Willis Z. Esbenshade as president of the Lancaster County Agricultural Extension

ROBERT GROFF

Association at a meeting of the executive committee last Saturday.

Esbenshade was named to the vice presidency in the organization. He lives at 1631 Esbenshade Road, Lancaster.

Re-elected to the posts of secretary and treasurer were Mrs. Allen Risser and Richard Lefever respectively. Mrs. Risser is from Bareville R1 and Lefever farms at Quarryville R1.

● Conservation

(From page 1)

He said "I am revolted to have to ditch the conviction I hold, the ideal to which I subscribe, concerning conservation in order to maintain what we call 'Standard of living'."

Dr. Biemsderfer called for a turning away from what he called consumerism - consumption for consumption's sake.

Amos Funk, chairman of the Soil Conservation District, was toastmaster at the banquet which was attended by approximately 225 members of the district.

SPRING OAT VARIETIES

Clinton, Garry, and Clinton 59 are the recommended varieties of spring oats for Pennsylvania in '61. Under conditions of high soil fertility, Clinton or Clinton 59 is better than Garry, says Elmer C. Pifer, extension agronomist.

For too many of us it is not the high cost of living so much as the cost of high living.
